Subject: Lowerline update

This is a quick update on the situation:

We have briefed our Division Director Carl Edlund and he understood the urgency of the situation. He has approved the action and the request for funding.

We have issued a task order to our cleanup contractor, ER. And they have started making arrangements to conduct the action.

They want to do a site walk next week. That will include some coordination needs, identifying and securing vendors and such.

That will allow for a definite start date but it should be in May
